

Bühler Transporte

I look at the website with a Mac on Google Chrome (Version 57.0.2987.133)

1. Startsite:

The underline is too thin. Please make it thicker (like the design we sent you at the beginning) And please adapt this to all headlines throughout the website.

Ihr Recycling- und Entsorgungsteam,
seit 1934.

2. Logo

Please switch the logo with the svg I'm going to send you.

3. Footer

The footer should always be fixed at the bottom of the website. Never like this:

4. PDF Download

Could you switch those icons with svgs? Just ask and I will send you the svgs if needed.

Right now only the icon is a link, could you link the whole line (z.B. Tourenplan 2017) to the PDF download?

5. Opening Hours

Could you change something small with those grey boxes? The title «Öffnungszeiten Recycling Center» should be Avenir Black because its a headline.

6. Menu

Please get rid of the tiny shadow between «Dienstleistungen» and the first menu-point (I marked it green)

Then please make the space between «Dienstleistungen» and the first menu-point a bit bigger (I marked it red)

7. Mobile version startsite

Please get rid of the blue squares which display the slider. We dont need them in the mobile version of the website.

The logo could be a bit smaller.

The slider-pictures should scale down, so that you can see the whole picture, not only a section.

Could you change the footer from center aligned to left aligned?

The small «Dienstleistungen» cards on the landingpage should all have the same height and width. I'm sending you a png where you can take a look of how it should look.

8. Mobile menu

Please use the correct font for the menu and a bigger font size. Should look like this:

Thank you very much! 😊

Best Regards
Jessica
